

nuCON Modular Labour Camp

nuCON Products Pvt. Ltd. is the market leader in Industrial and Commercial Interiors. It has been in the forefront of introducing new products and technologies for the Construction Industry for the last 38 years. A large number of leading manufacturers worldwide are associated with nuCON for a large range of products. Our strengths are – Quality, Speed and Economy, to add value to your business.

nuCON now introduces, an economical range of **Safe, Hygienic and Environmentally responsible**, modular labour houses for the accommodation of temporary labour as is found in the construction and other project and installation Industries. These houses are made of a steel frame that can be installed and dismantled in a very short period, with the help of semi skilled labour. The unique features of these houses are:

- **Low lifetime cost** that brings in economy. Reusability is the touchstone.
- **Easy** and economical to install, dismantle and transport.
- **Modular** in construction, so gives flexibility in setting up labour camps.
- **Safety from fire.** There is no wood used, so possibility of catching and propagating fire is eliminated. This is meant to relieve you of tension.
- **Well planned ventilation** through space above the lintel level, eliminating hot and stale air, naturally.

These houses are available in a module of 3m X 3m. The width can be either 3m with a single slope for the roof or 6m with double slope. The length can be any multiple of 3ms.

These houses can also be modified internally, so that it is possible to have independent rooms of 3m X 3m or have bigger space for dormitories, stores, shops etc.

A lot of add on functions and accessories are also available to enhance the utility of space and cost, such as:

- Luggage racks.
- Arrangement for bunk beds.
- Window opening frames for stores and shop counters.
- Cordon for bathing area.

We at nuCON look forwards to your esteemed enquiry. Our representative will meet you to understand your requirements and propose the most optimum solution, to meet your needs.
